TO YOUR CHILD NOW!

JUNIOR PEL PROGRAM

WHY?

Repeated research shows that early period of childhood development, (from conception to ages 6 - 8) is an essential building block on children's overall development and will help children achieve future success. Poor early development affects physical, mental, behavior and learning in later life. PEL's individualized, step by step instruction is the best investment parents can make in fostering self-esteem, confidence and a life-long love of learning.

BENEFITS

- Enthusiasm for lifelong learning
- Better prepared to succeed in school
- Building a strong foundation
- Improving attention span
- Developing self-esteem
- Fostering independent learning skills
- Enhancing time management skills
- Developing organization skills
- Strengthening study habits
- Empowering problem solving
- Building analytical skills
- Developing critical thinking skills
- Empowering resiliency
- Maximizing students' potential

HOW JUNIOR PEL PROGRAM WORKS?

Junior PEL students study in an age-appropriate, child-friendly environment at PEL Centers. Students study at the just right level of worksheets supplemented by other Junior PEL tools designed to make learning interactive. Students learn in incremental steps; success comes at every level and learning becomes exciting. As a result, your child's innate desire to learn new things is harnessed. He/She will discover confidence and self-esteem and build the foundation for lifelong learning.

MATH

Junior PEL Math builds logical thinking and reasoning skills. It develops a mentally organized way of thinking which is critical for future academic success.

- Developing number sense and number sequence by counting to 150 and writing to 130
- Comparing, counting, classifying objects to tell the numbers in each category
- Counting by 2, 3, 4, 5 and 10 and using 5's and 10's to understand time and money counting
- Developing algebraic thinking by understanding addition as putting together and subtraction as taking away
- Understanding place value by working with numbers and operations in base ten
- Identifying, describing, analyzing, comparing, creating and composing geometrical shapes
- Developing critical thinking skills with logical connections, reasoning, working with patterns and mathematical models
- Developing abstract and quantitative reasoning skills with repeated reasoning

PHONICS

Featuring the Spalding - "The Writing Road to Reading" method. Instruction is explicit, interactive, diagnostic, and multisensory. Students see, hear, say, and write using all channels of the brain to enhance retention. The program explicitly and systematically teaches the letters and letter combinations (phonograms) that represent speech sounds. Students learn to spell words by applying phonograms and the twenty-nine English Language rules that govern pronunciation, spelling, and language use. Students also practice reading story books to enhance fluency.

PARENTS' INVOLVEMENT

Ongoing research shows that parental engagement improves student achievement. In addition to bringing children to PEL Center twice weekly for a 30-minute session per subject, parents are asked to establish a learning routine and supervise their children's daily work at home. This allows parents to be actively engaged in their children's learning, help to affirm, encourage and support their children's progress.

THE PEL INSTRUCTOR

- Encourages and motivates your child to his/her full potential
- Sets goal with your child
- Guides, models, coaches and provides support as needed
- Provides careful and continuous observation of your child's progress to meet his/her needs
- Ensures maximized learning

PEL instructor is ever ready and available for regular conference with you to ascertain goals, advancement, and to accelerate the progress of your child.

SUCCESS STORIES

~ ARLENE M.

Having my two children enrolled in PEL Learning Center has been the best thing that I have done for them. The passion and commitment that directors in making sure that students reach their potential is admirable. The director and team of staff have changed and shaped my children's life by fostering great habits, self-confidence and self-esteem. I have tried other programs which I thought was alright until I join PEL and saw a huge improvement in their math and reading. I noticed a big improvement in just a six-month period. I truly recommend PEL if you are looking to do something that make a difference in your children's life and help them reach their full potential.

~ KAITLYN'S PARENTS

"I enrolled my daughter in PEL Learning Center since Kindergarten, and she is now in 2nd grade. One of the reasons why I enrolled her in PEL is that the program allows her to work at the just right level and at her own pace. I wanted her to advance to the next concept after she grasped the basics and ready to move on. I also wanted her to have reading fluency. This program offers all that plus it helped to build her confidence, independence and focusing skills. My daughter is now an advanced learner in her school, and I am pleased with her progress. Thank you PEL!"
